

# FORT WAYNE PHOTO CLUB

## WORKSHOP - January 19th, 7 p.m.

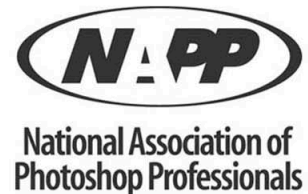

TOWNHOUSE RETIREMENT COMMUNITY - 2209 ST. JOE CENTER RD.

---

# LEARN

## Camera Raw Processing Techniques using Photoshop-Lightroom-Elements

*Larry Becker - Executive Director of National Association of Photoshop Professionals (NAPP) is reaching out to camera clubs across the country and sharing what NAPP is all about.*

*Larry is a trainer, author, designer, photographer, freelancer, and small business professional. He has literally "cherry-picked" some of the best, most popular training for photographers and is bringing it live and in person, to our next club training night, January 19th at 7 p.m.*

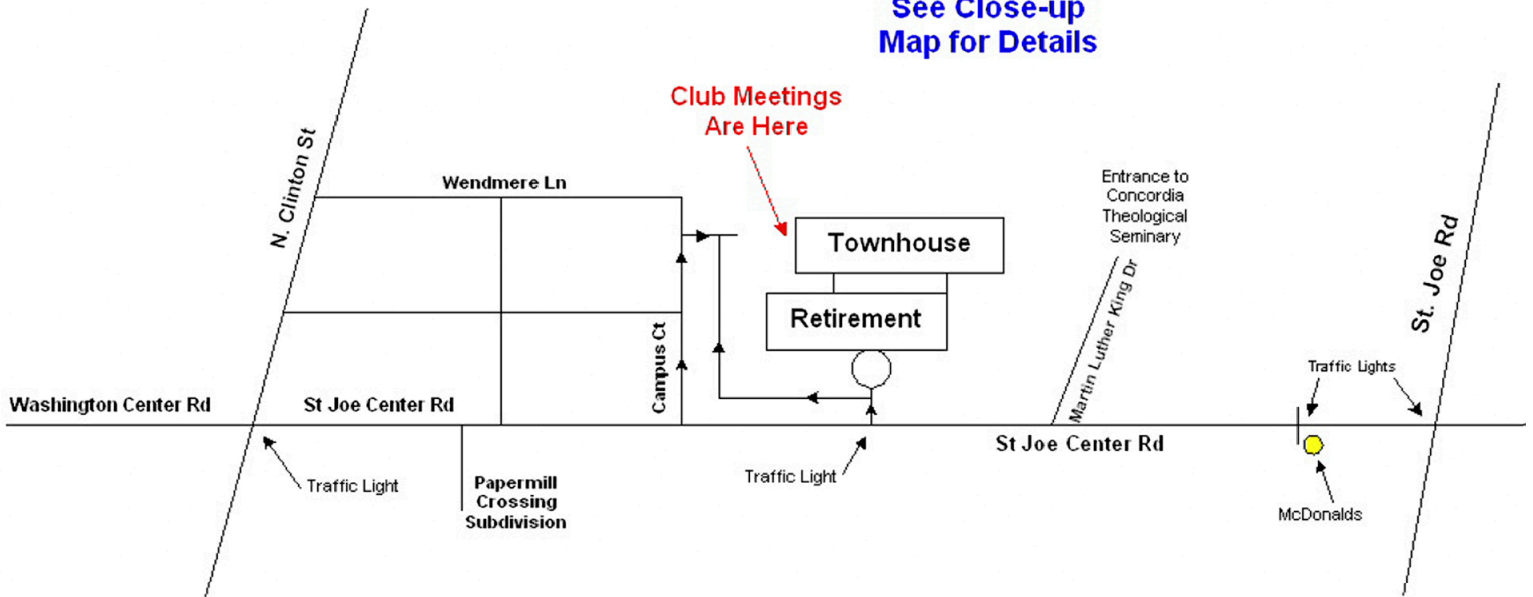

*He'll be presenting Camera Raw techniques from Scott Kelby's popular 7 Point System for Photoshop. And if you use Lightroom, this is equally valid training because when it comes to post processing, Lightroom and Camera Raw are practically identical. And even Photoshop Elements users will be happy because Larry is the featured instructor at Kelby Training for Photoshop Elements 9, so he'll include techniques for Elements users.*

*Everyone's sure to get some fast and powerful processing tips, and we forgot to mention -*  
**IT'S OPEN TO THE PUBLIC AND FREE OF CHARGE!!**

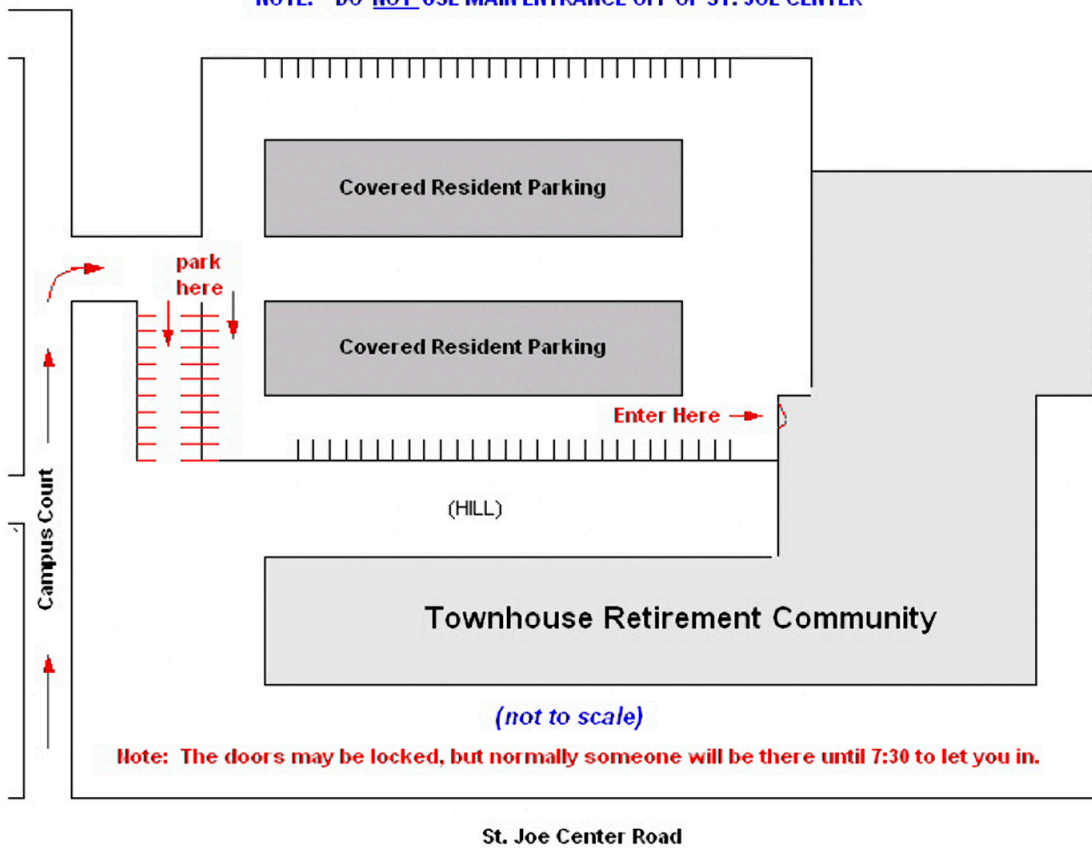

*Please RSVP through our website at [www.fwphotoclub.com](http://www.fwphotoclub.com)  
(you can also phone your RSVP to 260.484.3317)*

**PLEASE SHARE THIS FLYER WITH YOUR FRIENDS AND COLLEAGUES.**

See Close-up  
Map for Details

**NOTE: DO NOT USE MAIN ENTRANCE OFF OF ST. JOE CENTER**

Since our host facility is a retirement community, they often have the doors locked for safety concerns, but there should be someone there to let you in.

Once in the door, go straight until you reach a cross hallway (it's not very far). Turn RIGHT about 2 steps, then turn LEFT into the door to the meeting room.
